

EQiP Rubric and Quality Review Training Session December 13-14, 2018

Subject: Evaluating the coherence of science lessons and units with the New Jersey Student Learning Standards for Science.

Description:

This two-day workshop is designed to train teachers how to use the Educators Evaluating the Quality of Instructional Products (EQiP) Rubric for science to measure the degree to which lessons and units are designed for the New Jersey Student Learning Standards for Science.

The purpose of the rubric and review process is to: (1) review existing lessons and units to determine what revisions are needed; (2) provide constructive criterion-based feedback and suggestions for improvement to developers; (3) identify examples/models for teachers' use within and across states; and (4) to inform the development of new lessons, units, and other instructional materials.

This workshop is a cosponsored by the New Jersey Department of Education, Liberty Science Center, and Achieve. There is no cost to attend.

Audience: This workshop is most appropriate for K-12 science teachers, building administrators, and informal educators.

Workshop Dates & Times: December 13-14, 2018 from 8:30 am to 4:00 pm

Important Details:

There is no cost to participate in the training. Registration, parking, and a box lunch are provided for day fee for parking. Participants are responsible for their own snacks, beverages, and lunch. Food and drinks are available for purchase at the Café Skyline, located on the second floor of the LSC.
